Oct 28, 2021 - Download Mixed In Key for free. ðMixed In Key is a DJ software tool for harmonic mixing. This version has a very simple structure, without any complicated and confusing menus, with an intuitive graphical interface with easy navigation. In Mixed In Key you can simply drag and drop and pan your music files to quickly change their tempo, and add sound effects such as reverb, echo and delay. There are also two methods of playback. You can play tracks in a specific order or change or add tracks during playback.
